

TECHNICAL INFORMATION

BEST-Rust remover spray with MoS₂

BEST-Rust Remover with MoS₂ is a lubricant and contact agent. Fields of application are maintenance, repair, service and production.

PROPERTIES

- based on mineral oil, isoparaffinic hydrocarbon mixture and corrosion protection inhibitors
- lubricant and contact agent
- fast action on highly corroded joints

FIELDS OF APPLICATION

BEST-Rust Remover features high capillary action and excellent creep properties and is therefore predestined for the following fields of application:

- loosens corroded joints and screw connections, e. g. screws, bolts and nuts
- protects against corrosion, lubricates sliding surfaces, eliminates squeaking and creaking
- removes water from ignition contacts and electric wires
- ensures contact on distributor caps
- cleans and maintains break linkages, bowden cables, chains of all types and ensures their readiness for operation

DIRECTIONS FOR USE

Shake container thoroughly before use (approx. 2 Min) and wet parts to be treated. Treated parts can be loosened a few minutes after application.

HEALTH AND SAFETY STANDARDS

Hazard Statements: Extremely flammable aerosol. For further information please see corresponding material safety data sheet.

General

The data and information above correspond to the current know-how of BEST-Klebstoffe GmbH & Co.KG.
